

Conclusions

Hosted by Alex Thalhammer

Conclusions of/for The Workshop I 😊

- Migrate to Angular CLI
 - Because updates are so much less work
- Update frequently
 - To get best performance and latest features
- Extend to CLI with NX (@nrwl/angular)
 - Because compiling will be much faster
 - Better structuring
 - Better testing framework (Jest & Cypress)

Conclusions of/for The Workshop II 😊

- Work on architecture
 - Enterprise architecture (use NX monolith vs MFEs)
 - SCSS (global, lib/mfe, component styles, DRY, use CSS-vars)
- Test e2e with Cypress
- Translate with NGX Translate

Now please give some feedback

- What did you like
- What didn't you like
- What should be improved
- Please fill out this feedback form
